MSPO 2018: Polish President visits PIAP at MSPO

Gear **Events** Armed Forces

Redakcja, 13.09.2018

On the second day of this year's MSPO exhibition, Andrzej Duda, President of the Republic of Poland, visited the venue. President met with representatives of the Polish armament industry. During His stay, He visited various stands including one of the PIAP Institute (Industrial Research Institute for Automation and Measurements PIAP), where he viewed their newest offer developed for Polish Armed Forces and other security services.

Andrzej Duda visit was planned in connection with the President's honorable patronage of the 26th International Defence Industry Exhibition MSPO. /Photos: PIAP

President was highly interested in the mobile platforms displayed at the PIAP stand. These products were explained to Mr. Duda by the Institute's vice-director, M.Sc., Engineer Adam Andrzejuk. This was the first visit of Polish Head of State at the PIAP's stand. Warsaw-based manufacturer has been present on international market for many years and exports its products to 18 countries.
